**NOTE:** The proposed structure of National tournaments will be guided by the current pandemic protocols. The proposal takes into consideration restricted numbers in a venue at a given point in time. Scheduling will be done with carded matches beginning at specified times. There will be no spectators and players leave when their matches are over. There should be a tent or covered waiting area outside venues with seating and sanitization procedures in place

The T&F Committee reserves the right to adjust dates and change venues as the need arises. There will be systems in place to ensure venue readiness, player safety, equipment security, enforcing highest Codes of Conduct and consistent Umpiring and Refereeing protocols. Draw procedures will be clearly outlined and may be virtual with limited persons present as current pandemic protocols may require. A Tournament Report will be circulated soon after the the end of the tournament. Updated Ranking lists will be available a maximum two days after the tournament ends.
